

MEDICAL TREATMENT IN GERMANY

PREMIER HEALTHCARE
GERMANY

Germany a long-standing tradition of healthcare excellence

If you are looking for medical treatment abroad, Germany is a wise choice. It has a large number of specialized hospitals, the overall level of care is traditionally excellent and the prices are competitive compared with the rest of Europe. The country has an impressive reputation internationally and each year thousands of people from all over the world travel to Germany to benefit from its state-of-the-art medical facilities.

Premier Healthcare Germany is specialized in organizing treatment for international patients in German hospitals. We guide you through the often complex and unfamiliar process to ensure that your medical arrangements run smoothly and stay within budget.

Premier Healthcare Germany works on behalf of patients from all four corners of the globe. You can depend on our support, no matter where you are in the world.

Personal and competent

When you choose to work with Premier Healthcare Germany, you are assured of personal and extremely competent service. We are very familiar with the German healthcare market and we know how to operate successfully. Our representatives have all the necessary expertise to communicate with the relevant medical specialists at the right level. In addition, they speak your language and understand your culture. They help you by explaining the treatment options clearly and simply. As a result, you can reach a carefully considered decision together with the medical specialist.

Hospitals

Premier Healthcare Germany offers you access to a very wide choice of German hospitals. For example, we work closely with Asklepios, Europe's largest group of private hospitals. We regularly assist Asklepios' international department with patient enquiries from abroad; they are familiar with our way of working and know that we handle all requests with the utmost care.

We also organize medical treatment in hospitals that are not part of the Asklepios group. Premier Healthcare Germany relieves you of your concerns, regardless of which treatment you require and in which hospital.

Thorough preparation

Before you travel to Germany, we work closely with you to assess your situation. Have all relevant preliminary tests been carried out, do you understand which treatment you will receive and are you aware of the total cost?

We plan your stay very efficiently so that you will be back in your own familiar surroundings as soon as possible.

Higher quality and lower costs

At Premier Healthcare Germany, we deliver higher quality and lower costs for all concerned. Our efforts ensure that you receive help faster, that the right specialists are involved immediately and that you receive support during your stay in Germany. Meanwhile, we keep costs to a minimum - and that's better for everyone.

Premier Healthcare Germany makes medical treatment in Germany feel closer to home

We're happy to help you

If you have any questions about our services, please feel free to contact us without obligation. We are happy to explain more about the opportunities for receiving medical treatment or a check-up in Germany. Our team members speak German, English, Arabic, Chinese and Russian, and we can arrange interpreters for other languages if necessary.
